

Trustee's Update

Welcome to a new school year in Ward 10, Trinity Spadina. Our motto is **Ward 10 - Where You Belong**. I believe that this represents our intention to ensure that all our schools reflect the needs of the community and are welcoming to the community which we serve. I hope that we can live up to this motto now and in the future.

In order to keep families and community up to date on what events and policies might impact the way things happen in the ward I have asked each of the schools to include Trustee's Update in their monthly school news letters. I hope that I will be able to inform and interest you in what is happening in the ward and board wide.

Starting in September I have been going to schools to meet and give parent/guardians a postcard sized school year calendar with ward and school council info on the back. If you have not received one yet I will be at the schools over the next while and will be pleased to give you one. Or if you send me an email, I will send you one.

There were a series of happenings at the boardroom table that are very important to us. One of these is that the new director has asked for program reviews in many areas of the board and I believe that Ward 10 will be included – almost every ward is. I will keep you informed about this and if you wish to follow events more closely please follow on:
